

Want a tender for your yacht, but no space for it on board?
We have "the solution for you"

Our dual arm system will STORE your tender HORIZONTALLY until you are ready to LAUNCH it

No need to dry dock your yacht for installing

Hand held remote control operated

Easy to use, with launch time of a usual 12 seconds

Change your tenders at a later date and still keep your system

With the highly polished stainless steel extendable noses, it can be adapted to a variety of tender sizes of your choice

Will fit on most yachts, and we can even modify if needed, for your application

Match painted Marine grade
